

NOTICE: The Kittitas Reclamation District (“District”) hereby gives notice that it will accept sealed Bids for the construction of Project No. 33-SBC-1004, the South Branch Canal Improvements – Robinson Siphon to Milepost 10.4 project (“Project”).

The District will receive sealed Bids at the location listed below until 2:00 p.m. local time on September 4, 2020, and will then and there open and publicly read the Bids for the construction of the improvements.

Kittitas Reclamation District
315 North Water Street
Ellensburg, Washington 98926

Bid improvements consist of open channel canal replacement with large diameter pipeline, creek culvert replacement, drainage, earthwork and other work, all in accordance with the contract plans, the contract provisions, and the specifications. The improvements are for construction of water conservation and operational improvements to the KRD system. Requested base bid and pre-priced optional work follow the existing South Branch Canal alignment for a distance of approximately 2,000 feet from the KRD Operation and Maintenance Road crossing of Robinson Creek to a transition back to open canal approximately 1,800 feet downstream of the existing outlet of the Robinson Siphon. The Project has been divided into a Base Reach and an Optional Reach. The base bid improvements in these documents are for roadway improvements and pipeline replacement of open channel immediately downstream of the existing Robison Siphon described as work related to canal improvements between Stations 529+86 and Station 537+00.

It is the District’s desire to improve the remaining reaches of the canal between Robinson Creek and Manastash Creek. Pricing of the an initial reach extension is requested for potential optional award at the discretion of KRD. The optional bid improvements in these documents are for roadway improvements and pipeline replacement of open channel described

as work related to canal improvements between Stations 537+00 to 548+00. Optional award will depend on a variety of factors, including, but not limited to, grant funding award, weather, cost, Contractors work plan, demonstrated productivity on base bid reach, and the anticipated start of the 2021 irrigation seasons on or about April. This optional pricing will not be factored into evaluation of apparent low bidder.

Plans, specifications, and Bidding Documents are only available electronically on the District website (KittitasReclamationDistrict.org).

Bidding Documents are for the purpose of obtaining bids for the Work. No authorization or conference of license is granted by District issuance of the Bidding Documents. Bidders are solely responsible for the cost of preparing their Bids. The District specifically reserves the right, in its sole discretion, to reject any or all Bids or re-Bids or to waive inconsequential deviations from Bid requirements not involving time, price, or work quality.

A pre-bid conference will be held at 9 A.M. local time on August 18, 2020, beginning at the District office. Representatives of District and Engineer will be present to discuss the Project. Bidders are encouraged to attend and participate in the conference.

To run in the Daily Record Legal Notices

Aug. 11 & Aug. 25, 2020
